Re: Adee 1-14
SWSW Sec. 14-04S-21W
Norton County, Kansas
API # 15-137-20504-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Adee 1-14 well.

The original 365 days for closure expired on 03/11/2010. This extension will expire 09/01/2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Dear Folks,

We have been unable to backfill the pits on the Adeo 1-14 (API 15137205040000) located in 14-4-21 of Norton Co., KS because of the frequency of rain the last few months. We are getting closer and anticipate the pits to be closed within a month if the weather cooperates. I would like to request an extension to the 365 day closing rule.

Sincerely,

Jim R. Baird
