NESW Sec. 21-18S-31W  
Scott County, Kansas  
API # 15-171-20720-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Eva 1-21 well.

The original 365 days for closure expires on 05/31/2010. This extension will expire 09/01/2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

A handwritten signature in cursive script that reads "Doug Louis".

Ms Rains:

Recognizing that the deadline is approaching to close the drilling pits at the above location, I am told that periodic precipitation in this section has kept the reserve pit too wet to complete closure.

Berexco LLC requests that a six month extension be granted to allow for additional drying so we may complete this work. Dirt work has been done on site, to the end that the pit is not receiving runoff, but it retains too much moisture to finish restoration. The foreman said he would send a water truck to pull off any water he could to speed drying.

Thank you for your consideration of this matter.

Sincerely,

Richard Smith  
Engineering Technician
