Re: Wambsganss R. 1-31  
NENE Sec. 31-28S-15E  
Wilson County, Kansas  
API # 15-205-27756-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Wambsganss R. 1-31 well.

The original 365 days for closure expired 01/15/2010. This extension will expire 08/20/2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

  
Doug Louis  
Director

The drill pits on the above wells have not been filled as of today. We are requesting a 60 day extension from the date above in order to fill the pits and file a pit closure. Each well is in the middle of a wheat field and would require SEK to damage multiple acres of wheat to close the two pits. A 60 day extension would allow ample time for the wheat to be harvested and SEK to close the pit and file the closure form.
