Re: Bartlett 1
NWSE Sec. 24-23S-14W
Stafford County, Kansas
API # 15-185-23514-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Bartlett #1 well.

The original 365 days for closure expired on 03/28/2009. This extension will expire 10/15/2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Very sincerely yours,

RE: Closure of Surface Pits
Bartlett #1 Well
API 15-185-23514-0000
SE NW SE
Section 24 - 23 S -14 W
Stafford Co., Kansas

Dear Jonelle:

This letter is to inform you that the drilling pits are not closed and we are requesting an extension of time for 6 months. We feel that the pit closer should be done within 45 days, but additional time is requested should it be needed because of rain.

The Bartlett Lease pits are still too wet for full closer. Drilling site has been leveled and pits have been crowded and slotted on three sides. Land owner Andre Bartlett of St. John, Ks, requested that we wait until corn crop was harvested on August 30, 2010 before closing pits. Theis Dozer Service, Inc. of Kingman, Kansas is our dirt work contractor and they have been paid in full for this restoration work. Bob's Hauling Service, Inc. of St. Johns, Ks. is hauling water to keep location as dry as possible to a state approved disposal well.

We will continue to diligently work on the closure of these pits.

10/15/10

Sincerely,

Jerry W. Williamson
Owner

State: KS Zip Code: 67206 -1173

Lease Name: Bartlett Well #: 1

Operator Phone #: (316) 688-5288

County: Stafford

Reason for Investigation:

Operator requested an 6 month extension to pit closure requirements.

Problem:

Drill pits are still open after 1 year

Persons Contacted:

Andre Bartlett Landowner

Findings:

2:36 PM

Pit is mostly closed and is dry enough to finish the closure.

Andre Bartlett was on location at time of inspection. She agreed the pit was dry enough to close.

She was also concerned that the surface pipe was to close to the surface to farm over.

I agreed with her and called Mr. Williamson

Action/Recommendations:

Follow Up Required Yes No

Date: _____

Operator should be given a thirty extension to fill the pit.
