Re: Bluebaugh 1-20
NENE Sec. 20-31S-05W
Harper County, Kansas
API # 15-077-21631-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Bluebaugh 1-20 well.

The original 365 days for closure expired on 07/03/2009. This extension will expire 09/17/2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Steve,

Murfin has asked for an extension on three pits, and one of them is in your area. (Blubaugh 1-20, 21-31-5W, Harper Co.) Murfin's letter just states the pits are too wet to close and didn't ask for a certain amount of time for an extension. Let Kathy know if you think 30 to 60 days would be enough time to get this pit closed.

Thanks
Jeff

Sammy,

We are asking for an extension on the following due to wet conditions of the pit sites. Pits are still too wet to backfill.

API#	Well Name:	Location:
