Re: Ehmke 2-29
NWNE Sec. 29-18S-29W
Lane County
API # 15-101-22093-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Ehmke 2-29 well.

The original 365 days for closure expired 04/26/2009. This extension will expire 09/21/2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Pit Closure

Ladies and Gentlemen,

Due to the location of the Ehmke 2-29, the pits are still wet. We respectfully request a 3-month extension from the March 21st due date which would give us until June 21st. The pits will be pumped (again) and backfilled.

Sincerely,

Larson Engineering, Inc.

Carol Larson
Secretary/Treasurer
