Re: Waymaster 1  
SESW Sec. 02-15S-13W  
Russell County  
API # 15-167-23562-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Waymaster 1 well.

The original 365 days for closure expired 02/14/2010. This extension will expire 09/30/2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

  
Doug Louis  
Director

Re: REQUEST FOR PIT  
CLOSURE EXTENSION

Gentlemen:

On May 4th Wayne Fleenor of Fleenor Dirt Construction inspected the drilling pits for the well listed below and has discovered there is still water in the pits. The ground in this area is very shaley and does not drain well. **I have informed our production superintendent (Val Dreher Phone 785-483-8356) that the fluid needs to be removed.** We would like to request another backfilling extension so the process can be completed. Your consideration in this matter will be greatly appreciated.
