Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Tidewater Gobin 3 well.

The original 365 days for closure expired 08/23/2009. This extension will expire 03/17/2011. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Very sincerely yours,

A handwritten signature in black ink that reads "Doug Louis". The signature is written in a cursive, slightly slanted style.

Wichita, Kansas 67202-3802

I am writing to you to see if it would be possible for an extension on the Tidewater Gobin #3 as we got some rainwater that has collected in the pits. We pushed up a dike but it broke through. If I could have an extension it would be better to fill the pits.

Sincerely

Ross Hoener
