API # 15-055-22057-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Winter 1-21 well.

The original 365 days for closure expired on 11/23/2010. This extension will expire 02/24/2011. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Very sincerely yours,

Doug Louis
Director

Dear Ms. Rains:

Per our recent telephone conversation Vincent Oil Corporation is requesting an extension to the requirements for pit closure for the above referenced well. We are requesting a 90 day extension beyond the original required closure date of November 23th, 2010. We have recently contracted with a dirt contractor to complete the pit closure but that work cannot be completed within the current deadline. Thus we are requesting this 90 day extension.

Should you or the field staff have any questions or require additional information with regard to this request please contact me at the above letterhead address or telephone number.

Sincerely,

M.L. Korphage P.G.
Geologist
Vincent Oil Corporation
