Re: Staab #1
SENW Sec. 09-15S-18W
Ellis County, Kansas
API # 15-051-25897-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the Staab #1 well.

The original 365 days for closure expired on 10/19/2010. This extension will expire 01/19/2011. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Very sincerely yours,

Doug Louis
Director

RE: Request for Extension on Pit Closure

Dear Mr. Louis:

We are requesting an extension on the pit closure due date for a well we drilled last year. The soil has a high clay content and has been very slow to dry adequately before backfilling. We have backfilled the working pits and have partially backfilled the reserve pit but the remainder of the reserve pit is still to wet to finish. The location is at a producing oil well.

Particulars are:

Staab #1
