exempt status und and that the foreg correct to the best of equipment insta	der Rule K.A.R. 82-3-304 on be going pressure information ar t of my knowledge and belief t	ehalf of the operator HERM of statements contained or based upon available produmpletion or upon use being	n this application form are true and action summaries and lease records made of the gas well herein named.
	est a one-year exemption from ounds that said well:	t open now testing for the _	
(Check	one) is a coalbed methane production is cycled on plunger lift due is a source of natural gas for is on vacuum at the present is not capable of producing	to water r injection into an oil reserv time; KCC approval Docket at a daily rate in excess of	t No
staff as necessar  Date: 5-11-10	y to corroborate this claim for	exemption from testing.	
	Sign	<u> </u>	H. Olekan
		Title: REP. HERMAN L.	LOEB

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
