2nd Request

**RE: OPERATOR WELL INVENTORY
(FORM OWI-1)**

Dear Operator:

Your OPERATOR WELL INVENTORY Form was accepted on 4/26/2010; however, in order to approve your well inventory, additional information must be verified, corrected or submitted. Your well inventory form cannot be approved until the following issue is resolved:

- Van Tyle 13, API 15-121-20317, was listed as plugged on your well inventory form. During our phone conversation, you noted a plugging date of 10/12/2005. KCC records show it to be a producing oil well. I have checked our files and with District 3 staff and was not able to find any plugging records for this well. Please fill out the enclosed Well Plugging Record to the best of your ability and return to the Conservation Division so we can update our database and approve your well inventory.

All issues regarding your operator well inventory must be resolved before your license renewal in April. Please send the requested information/form to the Conservation Division by February 21, 2011. If you have questions regarding the OPERATOR WELL INVENTORY, contact Ashley Kerschner at (316) 337-6227.
