I declare under penalty of perjury under the laws of the state of Keenempt status under Rule K.A.R. 82-3-304 on behalf of the operator McC	•
and that the foregoing pressure information and statements contained	
correct to the best of my knowledge and belief based upon available pro	duction summaries and lease records
of equipment installation and/or upon type of completion or upon use being the large of the larg	
gas well on the grounds that said well:	
(Check one)	
is a coalbed methane producer	
is cycled on plunger lift due to water	
is a source of natural gas for injection into an oil rese	ervoir undergoing ER
is on vacuum at the present time; KCC approval Doc	ket No
is not capable of producing at a daily rate in excess	of 250 mcf/D
I further agree to supply to the best of my ability any and all suppor staff as necessary to corroborate this claim for exemption from testing.	•
Date: 12/28/10	
Signature:	Production

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
