Date of closure: 6/18/2009

Was an artificial liner used? Yes No

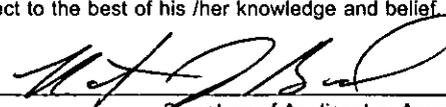

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?

Fresh water was used for plugging operations.

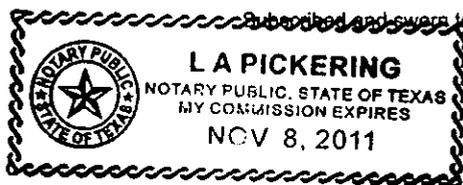

Abandonment procedure of pit:

Some water evaporated and the rest of the water was pumped water out of the pit and hauled to disposal. The pit was then back filled with the dirt that was removed to create the pit.

The undersigned hereby certifies that he / she is Robert Balcer - Prod. Supt. for Cabot Oil & Gas (Co.), a duly authorized agent, that all information shown hereon is true and correct to the best of his /her knowledge and belief.
