Re: Exploration and Production Waste Transfer Form
WARD FEED YARD Lease Well No. 1-19
SENESE 19-21-15W
PAWNEE County, Kansas
API No. 15145215540000

Dear Sirs:

Kansas Corporation Commission records show that the above referenced well was spudded on 4/4/2007, and was located in a sensitive ground water area. When the C-1, Intent to Drill Form, was returned to you there was a letter explaining the method of pit construction and the need to file the CDP-5 (August 2004), Exploration and Production Waste Transfer Form. This letter also stated the necessity to haul fluids at various stages in the drilling process. A review of our records reveals that a completed CDP-5 form has not been returned to the Kansas Corporation Commission.

According to K.A.R. 82-3-602, "Within 30 days after the transfer of the waste, each operator shall file a form prescribed by the commission with the conservation division reporting any transfer of pit waste from the lease".

A separate CDP-5 form must be filled out for each location where surface pit waste was disposed of that originated at the referenced lease. **Conservation division forms are available through our office and on the KCC web site:** <http://kcc.ks.gov/conservation/forms/>. Please return completed CDP-5 form(s) to this office within 30 days of receipt of this letter. Your cooperation in complying with this regulation is appreciated.

If you have any questions or concerns, please call **Sammy Flaharty** at (316) 337-6227.
