	e information and statements contained	
correct to the best of my knowle	edge and belief based upon available pro	duction summaries and lease records
·	upon type of completion or upon use beir exemption from open flow testing for the	
gas well on the grounds that sa	id weii:	
(Check lone)		
is a coalbed	methane producer	
is cycled on	plunger lift due to water	
is a source	of natural gas for injection into an oil rese	rvoir undergoing ER
is on vacuui	n at the present time; KCC approval Dock	ket No
is not capat	le of producing at a daily rate in excess of	of 250 mcf/D
		
I further agree to supply to	the best of my ability any and all support	ting documents deemed by Commission
staff as necessary to corrobora	te this claim for exemption from testing.

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
