exempt status und and that the foregorrect to the best of equipment insta I hereby reque	er Rule K.A.R. 82-3-3 oing pressure inform of my knowledge and illation and/or upon ty	04 on behalf of the ope ation and statements d belief based upon av	rator Priority Oil & G contained on this appailable production sur on use being made of	plication form are true and nmaries and lease records the gas well herein named.
	is a coalbed methand is cycled on plunger is a source of natural is on vacuum at the plus not capable of process to supply to the best	lift due to water al gas for injection into present time; KCC app oducing at a daily rate	roval Docket No n excess of 250 mcf/ all supporting docum	
Date: 12/21/2010		Signature:// Title: _Busine	Ss Manager	Anny

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
