exempt status under Rule K.A.R. 82-3-304 and that the foregoing pressure information correct to the best of my knowledge and be	der the laws of the state of Kansas that I am authorized to request on behalf of the operator Castelli Exploration, Inc.  ion and statements contained on this application form are true and relief based upon available production summaries and lease records of completion or upon use being made of the gas well herein named.						
I hereby request a one-year exemption from open flow testing for the Seibert #1-5							
gas well on the grounds that said well:							
is on vacuum at the pre is not capable of produ	it due to water gas for injection into an oil reservoir undergoing ER esent time; KCC approval Docket No ucing at a daily rate in excess of 250 mcf/D  f my ability any and all supporting documents deemed by Commission						
RECEIVED  DEC 2 3 2010  KCC WICHITA	Signature: Caucant Title: President						

Instructions:

Ī

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
