**Re: Pipeline Cathodic Groundbed Maintenance Activities
Across NE/4 Section 12, Township 32 South, Range 11 West,
Barber County, Kansas**

Dear Mr. Rucker:

ConocoPhillips Pipe Line Company ("CPPL") owns and operates two (12" and 16") refined petroleum product pipelines that cross your Barber County, Kansas property described above. These pipelines are protected by a cathodic protection (CP) system which helps to minimize the potential for pipe corrosion.

As you know, CPPL's Corrosion Department has just completed the plugging of a CP bed within your property at a location shown on the enclosed aerial mapping.

CPPL will be registering the plugging of this well with the Kansas Corporation Commission. Enclosed is our registration form to be filled with the KCC.

CPPL appreciates your cooperation we recently undertook as a means of helping us maintain our pipeline in a safe operating condition. Please contact me at (918) 661-0138 if you have any questions pertaining to our recent activity.

Very truly yours,
