	ler penalty of perjury under the laws of the state of Kansas that I am authorized to request der Rule K.A.R. 82-3-304 on behalf of the operator Vess Oil Corporation									
	going pressure information and statements contained on this application form are true and									
correct to the bes	it of my knowledge and belief based upon available production summaries and lease records									
of equipment inst	allation and/or upon type of completion or upon use being made of the gas well herein named.									
I hereby requ	est a one-year exemption from open flow testing for the Harper #1-31									
gas well on the g	rounds that said well:									
(Check	cone)									
	is a coalbed methane producer									
	is cycled on plunger lift due to water									
	is a source of natural gas for injection into an oil reservoir undergoing ER									
	is on vacuum at the present time; KCC approval Docket No									
X	is not capable of producing at a daily rate in excess of 250 mcf/D									
_	e to supply to the best of my ability any and all supporting documents deemed by Commission y to corroborate this claim for exemption from testing.									
Date: 8/4/11										
	_									
	Signature: 6 asey boats									
	Title: Operations Engineer									

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
