KCC WICHITA

I declare under penalty of perjury under the laws of the state of Kar		·
K.A.R. 82-3-304 on behalf of the operator contained on this application form are true and correct to the best of my k and lease records of equipment installation and/or upon type of completio li hereby request a one-year exemption from open flow said well:	nowledge and belief base	,
(Check one) is a coalbed methane producer		
is cycled on plunger lift due to water is a source of natural gas for injection into an oil reservoir under		
is on a vacuum at the present time; KCC approval Docket No. is not capable of producing at a daily rate in excess of 250 mc		
I further agree to supply to the best of my ability any and all supporting corroborate this claim for exemption from testing.	g documents deemed by t	ommission stan as necessary to
Date: August 3, 2011		
	Signature	David Ogden OXY USA-Inc

Instructions: If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
