I declare under penalty of perjury under the laws of the state of Kansas that I am K.A.R. 82-3-304 on behalf of the operator OXY USA Inc. and that contained on this application form are true and correct to the best of my knowledge and	t the foregoing pressure information and statements
and lease records of equipment installation and/or upon type of completion or upon use I hereby request a one-year exemption from open flow AUSTIN said well:	· · · · · · · · · · · · · · · · · · ·
(Check one)	
is a coalbed methane producer	
is cycled on plunger lift due to water	
is a source of natural gas for injection into an oil reservoir undergoing ER	
is on a vacuum at the present time; KCC approval Docket No. is not capable of producing at a daily rate in excess of 250 mcf/D	
I further agree to cumply to the heat of my chility any and all supporting decuments	dogmod by Commission stoff on accessory
I further agree to supply to the best of my ability any and all supporting documents corroborate this claim for exemption from testing.	deemed by Commission staff as necessary to
corroborate this claim for exemption from testing.	
corroborate this claim for exemption from testing.	
corroborate this claim for exemption from testing.	
corroborate this claim for exemption from testing.	deemed by Commission staff as necessary to RECEIVED AUG 2 5 2011 KCC WICHITA

Instructions: If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
