RE: Withdrawal of Plugging Application
Jost #1 – API 15-115-00154-0000
SW/4 Section 22-T19S-R2E, Marion County

To Whom it May Concern:

Please withdraw our Plugging Application, for the above referenced well. This Plugging Application was approved by the Kansas Corporation Commission on 6/8/11. We have worked over a well in the area, and would like an additional 60 days to review the production of Bartel #1. If this workover proves successful, we would like the opportunity to workover this well also. **We have advised the Landowners, of this action also.**

Sincerely,

Mindy Wooten
