I declare under penalty of perjury under t K.A.R. 82-3-304 on behalf of the operator contained on this application form are true and and lease records of equipment installation and I hereby request a one-year exemption said well:	OXY USA Inc. correct to the best of my knowle for upon type of completion or u	and that the foregoing p edge and belief based u upon use being made of	pressure information and statements pon available production summaries
(Check one) is a coalbed methane producer is cycled on plunger lift due to water is a source of natural gas for injection is on a vacuum at the present time; is not capable of producing at a daily	on into an oil reservoir undergoir KCC approval Docket No.	g ER	
I further agree to supply to the best of my a corroborate this claim for exemption from testin Date: October 13, 2011		uments deemed by Cor	nmission staff as necessary to
		Signature: _	David Onden OXY USA Inc Gas Business Coordinator

Instructions: If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
