I declare	e under penalty of perjury under the laws of the state of Kansas that I am authorized to request exempt status under Rule
K.A.R. 82-3-30	04 on behalf of the operator OXY USA Inc. and that the foregoing pressure information and statements
	this application form are true and correct to the best of my knowledge and belief based upon available production summaries
	ords of equipment installation and/or upon type of completion or upon use being made of the gas well herein named.  eby request a one-year exemption from open flow DIADEN FARMS 4-J15- for the gas well on the grounds that

Instructions: If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
