Describe in detail the manner in which the well is plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same depth placed from (bottom), to (top) for each plug set.

Ran tubing to TD 891'- Pumped well to surface with cement pulling tubing as we went along. Topped off with cement after all of tubing was pulled. Used 72 sacks of Portland Cement for total job. Russel Hine was notified.

\* see attached receipt on local purchase for 35 sacks.  
Had an additional 37 sacks on hand from another job.
