I declare under penalty of perju exempt status under Rule K.A.R. 82-	ry under the laws of the state of Kan	isas that I am authorized to request
and that the foregoing pressure info	ormation and statements contained of	on this application form are true and
	and belief based upon available produ	• •
	type of completion or upon use being	
	mption from open flow testing for the	, , , , , , , , , , , , , , , , , , ,
gas well on the grounds that said we	_	
(Check one)		
is a coalbed meth	ane producer	
is cycled on plung	ger lift due to water	
is a source of nat	ural gas for injection into an oil reserv	oir undergoing ER
is on vacuum at th	ne present time; KCC approval Docke	t No
is not capable of	producing at a daily rate in excess of	250 mcf/D
		ng documents deemed by Commission
staff as necessary to corroborate thi	s claim for exemption from testing.

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
