exempt s and that	status under Rule K.A.R. 82-5 the foregoing pressure info	ry under the laws of the state of Kansas that I am authorized to request 3-304 on behalf of the operator LOBO PRODUCTION, INC. by the production and statements contained on this application form are true and and belief based upon available production summaries and lease records
	·	n type of completion or upon use being made of the gas well herein named. mption from open flow testing for theARMSTRONG 2-1A
	on the grounds that said we	
	is a source of nat is on vacuum at th is not capable of ther agree to supply to the b	nane producer ger lift due to water ural gas for injection into an oil reservoir undergoing ER he present time; KCC approval Docket No producing at a daily rate in excess of 250 mcf/D lest of my ability any and all supporting documents deemed by Commiss is claim for exemption from testing.
Date: <u>10</u>	0/01/11 ·	Signature: Sulud Manual

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
