*Sincerely,*

*David G. Withrow*  
David G. Withrow  
Managing Partner  
Edison Operating Company, LLC

Dear David G. Withrow:

According to K.A.R. 82-3-602(e), "Within 30 days after the transfer of the waste each operator shall file a form prescribed by the commission with the conservation division reporting any transfer of pit waste from the lease".

According to our records an Exploration and Production Waste Transfer, form CDP-5, has not been filed and is past due for the above referenced location. A separate CDP-5 form must be filled out for each location where pit waste was disposed of that originated at the referenced location. As a KOLAR operator, please file the requested CDP-5 form electronically through KOLAR.

According to K.A.R. 82-3-128, "Verification of any information necessary to administer these rules and regulations or any commission order may be required by the conservation division. The failure to verify requested information shall be punishable by a \$100 penalty".

This requested information must be submitted by November 30, 2011. Failure to submit the requested information by this date may subject **Edison Operating Company LLC** to the assessment of the above referenced penalty(s).

Sincerely,

*Jonelle Rains*

Jonelle Rains, Supervisor  
Department of Environmental Protection and Remediation
