, , , , , ,	the laws of the state of Kansas that I am	•
exempt status under Rule K.A.R. 82-3-304 on		4
and that the foregoing information and stater the best of my knowledge and belief based u		
tion and/or of type completion or upon use of		or equipment installa-
I hereby request a permanent exemption fi		
gas well on the grounds that said well:		
(Check one)		
is a coalbed methane pro	ducer	
is cycled on plunger lift du	ue to water	
is on vacuum at the prese	for injection into an oil reservoir undergoient time; KCC approval Docket Noat a daily rate in excess of 250 mcf/D	
Date: 01/30/2012		
		·
Sig	gnature: Loveness M	pange
	Title: Petroleum Geologist	

Instructions:

All active gas wells must have at least an original G-2 form on file with the conservation division. If a gas well meets the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to obtain a testing exemption.

At some point during the succeeding calendar year, wellhead shut-in pressure shall be measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under "observed surface data." Shut-in pressure shall thereafter be reported yearly in the same manner.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than thirty (30) days after the taking of the pressure reading. The form must be signed and dated on the front side it was a verified report of test results.
