*Harting*  
RE: ~~Hasting~~ #1

Steve

Enclosed are two separate copies of Intent to drill forms for the *Harting* #1. The first one was filed in September of 2003 and assigned API #137-20421-0000. After reviewing the data we decided to move the location, therefore on April 2004 we filed a new intent for the *Harting* #1. The new location was 890 FNL and 2310 FWL and assigned API #137-20426-0000. This was a dry hole and was plugged on April 12, 2004. We never drilled at the original location assigned to API #137-20421-0000. We are trying to complete our well inventory certification and we would like the *Harting* #1, API #137-20421-0000 removed from our list of wells. Please let me know if you have any questions.

Thanks

Melissa Windholz
