3030	3079	Lime			
3079	3534	Lime			
			Total Depth from derrick floor		4173'
			Arbuckle lime top		- 3704'

No show of oil was encountered in Arbuckle lime formation which was topped at 3704'.

Well was deepened from 3717' in Arbuckle lime to 4173' in Granite and completed as a salt water disposal well.

Set 6" casing at 3793' with 400 sacks of cement. 10 3/4" casing was set at 204' with 250 sacks.

After casing was set, cement plug was drilled out with rotary tools and the well was acidized from 3794' to 4173' with 4,000 gallons of acid.

After acidizing well took water at the rate of 400 barrels per hour on 17 points vacuum.

Well is now standing. It will be used as a salt water disposal well at a later date when needed.

State of Kansas, County of Rice, SS

I, F. L. Dunn, District Superintendent, for Continental Oil Company in the West Kansas District, being first duly sworn on oath, state: That I have knowledge of the facts, statements and matters herein contained and that the same are true and correct.

F. L. Dunn
