My Commission Expires: _____

Called and talked to John Washburn w/ Range Oil Company on November 10, 2011, regarding the CDP-5 that was filed on the Seglem #3, 16-27S-6E, 15-015-23901-0000, Butler Cnty.

Mr. Washburn admitted that fluids were hauled from the reserve pit on the Seglem #3 to the Emergency Pit located on the Seglem lease, P10768, 5240'FSL-3980'FEL. Asked if he had received district permission to dispose of the fluids from the reserve pit in this manner, he stated that no, he had not received district permission. He stated that the fluids hauled into the emergency pit have evaporated.

Duane,

Read Kathy's email below and conduct an inspection of the Seglem tank battery site. A field report and a soil sample are being requested by EPR department. Let me know if you have any questions.

Subject: WASTE TRANSFER INTO EMERGENCY PIT SEGLEM SEC 16-275-06E BUTLER CTY

Jeff,

We received this COP-5 for the Seglem drill pit that had been inspected with requirements of fluid removal after 96 hrs. The COP-5 indicated they took fluids to their emergency pit for the Seglem tank battery (see attached emergency pit app info). Talked to Jonelle who called operator and they did indeed remove the fluids from drill pit to the emergency pit. When someone is in the area could they please take a soil sample from center of emergency pit and photo and send a report into us. Jonelle has talked to legal and they are going to pursue this. If you have any questions give me a call. Thanks

Kathy

Pi the pit they mention is closed is the drill pit - not the emergency pit
