	that the drilling, completion and ever	ventual plugging of this well will comply with K.S.A. 55-101,
et. seq. It is agreed that the following	minimum requirements will be met:	
1. The appropriate distric	t office shall be notified before s	setting surface pipe;
2. The minimum amount of su	rface pipe as specified above shall	be set by circulating cement to the top; in all cases surface
pipe shall be set throu	gh all unconsolidated materials pludging proposal shall be submitted	us a minimum of 20 feet into the underlying formation; d to the district office. An agreement between the operator
and the district office	on plug length and placement is no	ecessary prior to plugging:
4. The appropriate distric	t office will be notified before w	ell is either plugged or production casing is cemented in;
		mented from below any usable water to surface within 120 days
	mases, notify district office prior	the best of my knowledge and belief.
