I declare under penalty of perjury under the lar exempt status under Rule K.A.R. 82-3-304 on behalf	ws of the state of Kansas that I am authorized to request of the operator_ARES Energy, Ltd.
and that the foregoing pressure information and st correct to the best of my knowledge and belief base of equipment installation and/or upon type of comple I hereby request a one-year exemption from ope	atements contained on this application form are true and dupon available production summaries and lease records attion or upon use being made of the gas well herein named.
gas well on the grounds that said well:	
is on vacuum at the present time	ction into an oil reservoir undergoing ER
I further agree to supply to the best of my ability staff as necessary to corroborate this claim for exe	y any and all supporting documents deemed by Commission mption from testing.
Date: November 17, 2011	
Signature	Henry N. Clarton
Title	Henry N. Clanton, Managing Partner

instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
