															K	AUG 1 1 2 CC WICHI	

I declare under penalty of perjury under the laws of the state of Ka K.A.R. 82-3-304 on behalf of the operator OXY USA Inc. contained on this application form are true and correct to the best of my and lease records of equipment installation and/or upon type of complete I hereby request a one-year exemption from open flow said well:	and that the foregoing knowledge and belief based	pressure information and statements upon available production summaries
(Check one)  is a coalbed methane producer  is cycled on plunger lift due to water  is a source of natural gas for injection into an oil reservoir und  is on a vacuum at the present time; KCC approval Docket No.  is not capable of producing at a daily rate in excess of 250 methods.  I further agree to supply to the best of my ability any and all supporting corroborate this claim for exemption from testing.	o. ct/D	ommission staff as necessary to
Date: July 22, 2011		
	Signature:	David Ogden OXY-USA Inc

Instructions: If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
