•	y of perjury under the laws of the s C.A.R. 82-3-304 on behalf of the oper	ate of Kansas that I am authorized to request ator_Bear Petroleum LLC						
		ontained on this application form are true and						
correct to the best of my kr	nowledge and belief based upon ava	ilable production summaries and lease records						
• •	• • • • • • • • • • • • • • • • • • • •	n use being made of the gas well herein named.						
I hereby request a one	-year exemption from open flow test	ng for the Decker A #1						
gas well on the grounds th	at said well:							
(Check one)								
is a coalbed methane producer								
is cycled on plunger lift due to water								
is a source of natural gas for injection into an oil reservoir undergoing ER is on vacuum at the present time; KCC approval Docket No								
					✓ is not c	apable of producing at a daily rate in	excess of 250 mct/D	
I further agree to supp	ly to the best of my ability any and a	Il supporting documents deemed by Commission						
staff as necessary to corro	borate this claim for exemption from	n testing.

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption IS denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
