Re: Rilinger 2-25  
NWSWSW Sec. 25-04S-13E  
Nemaha County, Kansas  
API # 15-131-20214-00-00

Dear Sir or Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Rilinger #2-25 well.

The original 365 days for closure expired on 12/05/2010. This extension will expire 12/20/2011. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Very sincerely yours,

Doug Louis  
Director

**Re: Closure of Surface Pit Extension Request**  
**Rilinger #2-25**  
**Sec. 25-4S-13E**  
**Nemaha Co., KS**

Dear Kathy,

Mustang Fuel Corporation is requesting an extension to close the surface pit on the Rilinger #2-25. This pit should have been closed by 10-26-10 but Mustang was unable to comply at that time. The pit is located within a draw and had not dried up until recently. The long stretch of dry and hot weather has dried out the pit and it is now able to be closed. The landowners had also requested that we hold off doing work while they were evaluating possible changes on that part of their land. Their work is now complete and they are ready to have Mustang close the pit. Upon approval by the Kansas Corporation Commission we will begin work immediately to close the pit and restore the location back to as natural state as possible. Please contact me at 405-748-9487 if you have any further questions.

Sincerely,

Jim D. Hill  
Director of Operations
