## KCC WICHITA

				KCC Mornin
K.A.R. 82 contained and lease	-3-304 on behalf of the operator on this application form are true and records of equipment installation an hereby request a one-year exemption	OXY USA Inc. I correct to the best of my d/or upon type of comple	and that the foregoi	to request exempt status under Rule ng pressure information and statements ed upon available production summaries e of the gas well herein named. for the gas well on the grounds that
(Check o	one)  is a coalbed methane producer  is cycled on plunger lift due to wate  is a source of natural gas for inject  is on a vacuum at the present time  is not capable of producing at a da	ion into an oil reservoir u ; KCC approval Docket N	lo.	
	er agree to supply to the best of my attemption from testi		ting documents deemed by	Commission staff as necessary to
Date:	October 24, 2012			
			Signatu	David Orden re: OXY USA-Inc
			Tit	le: Gas Business Coordinator

**Instructions:** If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
