Form G-2 (Rev. 7/03)

KCC WICHITA

I declare under penalty of periury under the laws of the	
racolate and parially of policy and are taken and	e state of Kansas that I am authorized to request exempt status under Rule
K.A.R. 82-3-304 on behalf of the operator OXY L	JSA Inc. and that the foregoing pressure information and statements
	best of my knowledge and belief based upon available production summaries
I hereby request a one-year exemption from open file	of completion or upon use being made of the gas well herein named. ow
said well:	JOANTA J-NI23-02-03
(Check one)	
is a coalbed methane producer	
is cycled on plunger lift due to water	
is a source of natural gas for injection into an oil r	
is on a vacuum at the present time; KCC approva	
is not capable of producing at a daily rate in excess	ss of 250 mcf/D
corroporate this claim for exemption from festing.	
corroborate this claim for exemption from testing.

Instructions: If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
