Re: Haul-Off Pit Extension  
DC Salser Lease Well No. 2  
Sec. 06-33S-05W  
Harper County, Kansas  
Permit No. 15-077-21636H

Dear Sir or Madam:

This letter is written to inform you that you have been granted an additional extension of time in which to close the haul off pit associated with the DC Salser 2 lease.

This extension will expire on February 22, 2011. I urge you to make every effort to close this pit within this time frame. Extension of this time frame automatically extends the time period for filing the surface pond closure form.

If you have any questions in this regard, please do not hesitate to contact Kathy Haynes at (316) 337-6243.

Sincerely,

A handwritten signature in black ink that reads "Doug Louis". The signature is written in a cursive, flowing style.

7-15-10  
Give 6 month Extension  
*[Signature]*

Dear Ms. Rains:

We have once again had our field personnel again check the status of the pit at this location and due to the high moisture in the area it is still not possible to fill the pit at this time. We would like to request an additional six months to fill the pits. Unfortunately in this area we typically have to request an extension for the closure of the pits.

If you have any questions please contact Casey Coats at extension 104.

Very truly yours,

*Michelle D. Henning*

Re: DC Salser #2  
Sec. 6-33S-05W  
Harper County, KS  
Permit #15-077-21636H  
Haul-Off Pit Extension

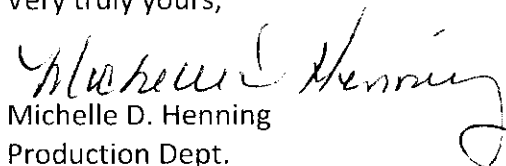

Dear Mr. Louis:

We would like to request a six (6) month extension to fill the pit on the Salser DC #2 in Harper County. The engineer for this area, Casey Coats, talked with Kathy Haynes about the situation on this lease earlier today. This location is very difficult to get to and the ground is almost always saturated with standing water. Recently when someone went out to check it, they could not get all of the way to the location and in the process had to have a dozer come pull them out.

We would appreciate it if we could be granted a six (6) month extension rather than a three (3) month extension due to spring coming and additional rainfall and moisture expected through the remaining winter months.

If you have any questions or concerns please contact Casey Coats at 682-1537 Ext 104.

Very truly yours,

  
Michelle D. Henning  
Production Dept.

Dear Ms. Rains:

We have received your notice regarding the pit closure on the DC Salser #2 referenced above.

We have had our field personnel again check the status of the pit at this location and due to the high moisture in the area it is not possible to fill the pit at this time. We would like to request an additional six months to fill the pits. Unfortunately in this area we typically have to request an extension for the closure of the pits.

If you have any questions please contact Casey Coats at extension 104.
