Was an artificial liner used? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No			
If no, how were the sides and bottom sealed to prevent downward migration of the pit contents? I was told by the KCC that a pit liner would not be necessary if emptied immediately after plugging.			
Abandonment procedure of pit: A vacuum truck emptied immediately after plugging of well on 12/08/2010 and hauled to the SWD. A backhoe backfilled the pit and cellar after a welder cut off the surface pipe and 5 1/2" csg 6' below surface on 12/09/2010.
