Form G-2 (Rev. 7/03)

KCC WICHITA

contained on this application form are true and correct to the best of my knowledge and lease records of equipment installation and/or upon type of completion or upon	nd that the foregoing ge and belief based on use being made o	pressure information and statements upon available production summaries of the gas well herein named.
said well:	(4-E11-31-33	for the gas well on the grounds that
(Check one)		
is a coalbed methane producer		
is cycled on plunger lift due to water		
is a source of natural gas for injection into an oil reservoir undergoing	ER	
is on a vacuum at the present time; KCC approval Docket No.		
is not capable of producing at a daily rate in excess of 250 mcf/D		
corroborate this claim for exemption from testing.		
Date: October 30, 2012		
	Signature:	David Ogden OXY USA Inc
	Title:	Gas Business Coordinator

Instructions: If a gas well meets one of the eligibility criteria set out in the KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31st of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
