NOV 14 2012

KCC WICHITA

	1110111M
I declare under penalty of perjury under the laws of t exempt status under Rule K.A.R. 82-3-304 on behalf of the	•
and that the foregoing pressure information and statemen	, ,
correct to the best of my knowledge and belief based upon	
of equipment installation and/or upon type of completion or	· · · · · · · · · · · · · · · · · · ·
I hereby request a one-year exemption from open flow	testing for the GLASCO 1-31
gas well on the grounds that said well:	
(Check one)	
is a coalbed methane producer	
is cycled on plunger lift due to water	
is a source of natural gas for injection in	nto an oil reservoir undergoing ER
is on vacuum at the present time; KCC	approval Docket No.
is not capable of producing at a daily ra	ate in excess of 250 mcf/D
I further agree to supply to the best of my ability any a	ind all supporting documents deemed by Commissio
staff as necessary to corroborate this claim for exemption	from testing.
Date: 11/01/2012	
Date.

Signature:	Richard a. Mille
Title: OW	/NER/OPERATOR
Title	

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
