exempt status of and that the for	clare under penalty of perjury under the laws of the State of Kansas that I all under Rule K.A.R. 82-3-304 on behalf of the operator LINN OPERATING, regoing information and statements contained in this application form are to lest of my knowledge and belief based upon available production summaries	INC. rue and
I here	nstallation and/or upon type of completion or upon use being made of the geby request a one year exemption from open flow testing for the grounds that said well:	as well herein named. HCU 0531-B
	is a coalbed methane producer is cycled on plunger lift due to water is a source of natural gas for injection into an oil reservoir undergoing Ef is on vacuum at the present time; KCC approval Docket No. is not capable of producing at a daily rate in excess of 250 mcf/D to supply to the best of my ability any and all supporting documents deemesary to corroborate this claim for exemption from testing.	
Date:	12/4/2012	
	Signature: Stray Ushe Title: Administrative Assistant II	

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to obtain exempt status for the gas well.

At some point during the succeeding calendar year, wellhead shut-in pressure shall have been measued after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility from exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
