and that the foregoing pressure information and stateme correct to the best of my knowledge and belief based upo of equipment installation and/or upon type of completion or	n available production summaries and lease records
I hereby request a one-year exemption from open flow	
gas well on the grounds that said well:	
(Check one)	RECEIVE
is a coalbed methane producer	DEC 2 0
is cycled on plunger lift due to water is a source of natural gas for injection is on vacuum at the present time; KCC	
is not capable of producing at a daily	••
I further agree to supply to the best of my ability any staff as necessary to corroborate this claim for exemptio	and all supporting documents deemed by Commission n from testing.
Date: 11-15-2012	RECEIVED NOV 1 9 2012
	NOV 1 9 2012 KCC WICHITA
	ACC WICHITA

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
