Dear Operator:

The enclosed **Well Plugging Application forms (CP-1 and KSONA-1)**, received December 13, 2012, are incomplete because they are *copies that have just been re-dated* rather than original forms. Plugging applications cannot be processed for the above-referenced wells without the following corrective actions:

**ORIGINAL CP-1 and KSONA-1 forms must be submitted.** We cannot accept copies that have simply been re-dated. **Blank CP-1 and KSONA-1 forms for both wells** are attached for your use.

Please make all of the above-referenced corrections and **then return both ORIGINAL forms, along with a copy of this letter, to my attention by December 28, 2012.** If you have any questions, please contact me directly at (316) 337-6108.

Sincerely,

Marjorie (Maggie) Marcotte

Dear Operator:

This letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. **Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.**

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. This notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well.

**This notice is void after June 29, 2013. The CP-1 filing does not bring the above well into compliance with K.A.R. 82-3-111 with regard to the Commission's temporary abandonment requirements.**

Sincerely,

Steve Bond
