KCC WICHITA

The state of the s		he operator F.G. Holl Company, L.L.C.	
The state of the s		ntained on this application form are true and	447.0
the best of my knowl	edge and belief based upon gas	production records and records of equipmen	t installa-
	empletion or upon use of the gas		
I hereby request a	a permanent exemption from open	flow testing for the BREITENBACH M. 1-19	
gas well on the grou	nds that said well:		
(Check one	a)		a di
is	a coalbed methane producer		
is	cycled on plunger lift due to water	or	
is	a source of natural gas for inject	on into an oil reservoir undergoing ER	
is	on vacuum at the present time; h	CC approval Docket No.	<u> </u>
√ is	incapable of producing at a daily	rate in excess of 250 mcf/D

	Signature: _	Loveness many	
	Title:	Petroleum Geologist	

Instructions:

All active gas wells must have at least an original G-2 form on file with the conservation division. If a gas well meets the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to obtain a testing exemption.

At some point during the succeeding calendar year, wellhead shut-in pressure shall be measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under "observed surface data." Shut-in pressure shall thereafter be reported yearly in the same manner.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than thirty (30) days after the taking of the pressure reading. The form must be signed and dated on the front side as though it was a verified report of test results.
