correct to the be of equipment ins I hereby req	st of my knowledge and belief bas	sed upon available produc pletion or upon use being m	this application form are true and tion summaries and lease records nade of the gas well herein named. Martin #1
I further agr		water njection into an oil reservoine; KCC approval Docket N a daily rate in excess of 2:	No
staff as necessi	ry to corroborate this claim for ex	cemption from testing.	011) - 0. 0
	_	itle: President	VY . Dutrit

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
