**Davis "C" # 3-27, Sec. 27, T. 15 S., R. 28 W., Gove County, Kansas**  
**API No. 15-063-21610-00-00**

Dear Ms. Glenna Lowe:

Your "Application for Commingling" (ACO-4) for the above described well has been technically reviewed and approved by the Kansas Corporation Commission (KCC) per **K.A.R. 82-3-123a**. This application, which was received by the KCC on **March 22, 2006** concerns approval to simultaneously produce from the following **two** sources of supply through the same tubing string in the same wellbore: the **Kansas City** and the **Mississippian** formations.

According to your application, the estimated current production from the **Kansas City** source of supply is **10 BOPD** and **10 BWPD**. The estimated current production from the **Mississippian** source of supply is **10 BOPD** and **10 BWPD**. The total estimated current production from all sources of supply in the subject well is **20 BOPD** and **20 BWPD**. Included in this application was operator verification that the offset operators had been formally notified of this application. No protest had been filed within the 15-day protest period.

Based upon the depth of the **Mississippian** formation perforations, total oil production shall not exceed **200BOPD** and total gas production shall not exceed **50%** of the absolute open flow (AOF).

Docket Number **CO 30603** has been assigned to this approved application. Please use this number for well completion reports (ACO-1) and other correspondence that may concern this approved commingling.

Sincerely,

David P. Williams
